Conducted awareness for children through mimes and dramas to emphasize on environment, importance of natural resources

EDUCATION

SASTRA Deemed University   **Passing Year - 2022**

B.Tech in Electronics and Instrumentation Engineering

Grades : **7.90/10**

P.S. Senior Secondary School   **Passing Year - 2018**

Class 12- CBSE

Grades : **81%**

P.S. Senior Secondary School   **Passing Year - 2016**

Class 10- CBSE

Grades : **8.4/10**

PROJECTS

Tyre pressure monitoring system

Simulation of an Arduino based pressure monitoring system for car tyres using Proteus Software.

Recipe Generation Systems

The aim of this project is to compare the relevancy and accuracy of recipe generation systems based on the given data set which is executed through Recurrent neural networks (RNN) such as Long short-term memory (LSTM), Gated recurrent units (GRU), Generative pre-train transformer (GPT).

mAadhar Application

An application to automate the process of applying for Aadhar card by making it smoother for Indian citizens.
